WHEN DEKTON® BECOMES NATURE
Dekton® Stonika imitates nature by creating 6 classic colors of hyper-realistic beauty. Vibrant streaks and textures with a rustic look & feel combine with the highest technological rendering for a revolutionary surface.

Dekton® becomes nature itself and it ensures longevity.
Dekton® Stonika is synonymous with hyperrealism, better definition and depth and, most importantly, stays true to the same characteristics that make Dekton® XGloss a state-of-the-art ultra-compact surface.

Hyperrealist Design

Unlike other surfaces, the use of a thick vitreous layer is not necessary with Dekton® XGloss Stonika technology. Consequently, the image is not distorted and allows for greater clarity and realism of the designs.

Sublime Edges

Dekton® XGloss Stonika is conceived as a unique piece unlike other products where a glassy layer is distinguished. Its surface layer is almost imperceptible due to the thickness. It’s the thinnest in the market and it fuses perfectly with the base by creating a single more compact and resistant material.

Thermal and Scratch Resistance

Dekton® Stonika belongs to the Xgloss collection, so it keeps the same scratch properties as other polished colors. Base and surface behave to temperature changes in the same way by avoiding common cracks due to the difference in expansion between the two elements.

An unique material with integrated design

Better hyperrealism and sharpness

Perfect edges* with small bevels and no imperfections

Thermal Resistance

*Decoration in volume in Taga and Arga colors.
Dekton® Stonika Bergen

BERGEN

Inspired by natural Portobello stone, Dekton® Stonika Bergen strives for perfection in tone, structure, and depth. The beauty of its grayish streaks with sculptural pattern on an off-white base makes it a design loaded with personality and elegance.

Copper taps by Dornbracht

The dark matte tones in any type of material (leather, wood, etc.) produce interesting contrasts that highlight the intense brilliance of Dekton® Stonika TAGA.

The golden, earthy and white elements are ideal for creating a contemporary and elegant setting.

TAGA

Inspired by the quartzite of the Taj Mahal, Dekton® Stonika Taga is an interpretation adapted to current trends that maintains the character of natural stone. The general grayish tones with marble and crystalline streaks enhance its natural structure. Its splendid sheen and aesthetic quality contribute to making this a premium model.
They grayish streaks of Dekton® Stonika Olimpo perfectly combine with golden, metallic and wood elements like natural oak, and cementitious surfaces like Dekton® Soke in the Industrial Series.

Settings
Modern / Industrial / Nordic

OLIMPO

Inspired by the highest quality Carrara, Olimpo is the version of Dekton® Stonika for the most discerning tastes. The color reflects the elegance of grayish streaks against a white background. Thereby, enhancing its details with a dazzling sheen.
Dekton® Stonika Arga creates a striking color balance with low saturated tones and golden details. Inspired by the quartzite of the Taj Mahal, Dekton® Stonika Arga features the luxury of the natural stone with the properties of Stonika. Its smooth cream background with subtle brownish gold streaks enhance its dramatic structure. A hyperrealist graphic with a dazzling sheen adds depth and richness to this material.
SOGNE

Inspired by the famous Gris Pulpis, Dekton® Stonika Sogne is a color with touches of natural stone and cement. Its veined structure and cement background make the Sogne a fusion between the natural and the industrial, showcasing the most elegant elements of both. Its gray finish combines with a clear veined structure that breaks the usual aesthetic rules of color conventions. A proposal with architectural significance, considering both trends and functionality.
The beige, earthy and ochre tones in all their chromatic glory create the perfect setting for the Dekton® Stonika Korso to bask in its own beauty.

---

**Dekton® Stonika KORSO**

Inspired by natural stone, Dekton® Stonika Korso is a color that resembles the delicateness and versatility of Gris Pulpi marble. A color palette based on earthy tones contrasts with random gray streaks of varying intensity. With its combination of dazzling sheen and graphic hyperrealism, the Korso is synonymous with timelessness, visual impact, and big personality.
