EN

Sensa is a Natural Stone Surface by Cosentino, a high-quality surface that offers such reliable performance that it comes with a 15-year certified guarantee.

We travelled all the way to Brazil and India to find the most beautiful stone that Nature can create. This stone was chosen following strict criteria of aesthetic excellence that resulted in unique, elegant surfaces with an exotic, yet subtle, touch. Unique. The adjective is well-chosen.

Every Sensa slab is different from the rest because each surface has exceptional veining that is found in no other. A product idea for demanding customers who require a material that is resistant to scratches and stains and that offers outstanding performance over time.

HE

משטח Sensa הינו משטח אבן טבעית מבית Cosentino, משטח באיכות גבוהה בעל ביצועים כה אמינים, עד שהוא מגיע עם אחריות ל-15 שנים.

נסענו עד לברזיל ולהודו כדי למצוא את האבן היפה ביותר שהטבע יכול ליצור. בחרנו באבן זו כדי לעמוד בקריטריונים נוקשים של מצוינות אסתטית, והתוצאה היא משטחים ייחודיים ואלגנטיים, עם מגע אקזוטי אך מעודן. ייחודי. זהו תואר שנבחר בקפידה.

כל משטח Sensa הינו ייחודי, מאחר ולכל משטח יש תבנית עורקים יוצאת דופן, שלא ניתן למצוא בשום משטח אחר. זהו מוצר המתאים ללקוחות תובעניים, אשר צריכים חומר עמיד בפני שריטות וכתמים בעל ביצועים יוצאים מן הכלל לאורך זמן.

Plakalardaki damar yapısı değişiklik gösterdiğinden her bir Sensa plakası diğerlerinden farklıdır. Çizilme ve lekelenmeye karşı dayanıklı ve üstün performansını zamanla kaybetmeyen bir malzeme isteyen titiz müşteriler için ideal bir üründür.

HOW SENSА IS TREATED

SENSA NASIL BİR İŞLEM DEN GEÇER?

אופן הטיפול במשטח Sensa

КАК СЕ ОБРАБОТВА SENSА

EN

Cosentino subjects the stone to an invisible long-lasting treatment, capable of chemically incorporating itself into the material while still letting it breathe. This technology increases its powerful natural properties and prolongs its useful life.

The process alters the surface tension of the stone, causing the material itself to prevent liquids such as water, coffee or oil from penetrating it.

In addition, Sensa is, thanks to the material's own natural characteristics, able to retain its colour and protect itself from alterations caused by sunlight and UV radiation.

TR

Cosentino taşı, kendini malzemeye kimyasal olarak entegre ederken malzemenin nefes almaya devam etmesine izin veren ve rengini değiştirmeyen, uzun süreli bir işleme tabi tutar. Bu teknoloji, taşın güçlü doğal özelliklerini arttırarak kullanım ömrünü uzatır.

Bu işlem, taşın yüzeysel gerilimini değiştirerek su, kahve veya yağ gibi sıvıların taş tarafından emilmesini engeller.

Ayrıca Sensa, taşın doğal özellikleri sayesinde renk solması yaşatmaz, güneş ışığı ve ultraviyole ışınların neden olacağı etkilere karşı kendini korur.

HE

Cosentino חושפת את האבן לטיפול בלתי נראה המחזיק מעמד לאורך זמן, אשר מסוגל להשתלב מבחינה כימית באבן ועדיין מאפשר לה לנשום. טכנולוגיה זו משפרת את התכונות הטבעיות רבות העוצמה של האבן, ומאריכה את זמן השימוש בה.

תהליך זה משנה את המתח הפנים של האבן, וגורם לאבן עצמה למנוע חדירת נוזלים כגון מים, קפה או שמן.

בנוסף, הודות לתכונות הטבעיות של האבן, משטח Sensa מסוגל לשמור על צבעו ולהגן על עצמו מפני שינויים הנגרמים על ידי אור השמש וקרני אולטרה-סגולה.

BG

Cosentino подлага камъка на невидима дълготрайна обработка, която се слива с материала по химичен път, като с това не се отнема възможността му да диша. Технологията увеличава мощните естествени свойства на материала и удължава продължителността му на употреба.

Процесът променя повърхностното напрежение на камъка, като с това го предпазва от проникване на течности, като вода или мазнина.

Освен това, благодарение на собствените си естествени характеристики, материалът на Sensa запазва цвета си и остава неподатлив на влиянието на слънчевата и ултравиолетова светлина.
