WHEN DEKTON® BECOMES NATURE
Dekton® Stonika imitates nature by creating 6 classic colours of hyper-realistic beauty. Vibrant streaks and textures with a rustic look & feel combine with the highest technological rendering for a revolutionary surface.

Dekton® becomes nature itself and it ensures longevity.
Dekton® XGloss Stonika is synonymous with hyperrealism, better definition and depth and, most importantly, stays true to the same characteristics that make Dekton® XGlass a state-of-the-art ultra-compact surface.

Hyperrealist Design

Unlike other surfaces, the use of a thick vitreous layer is not necessary with Dekton® XGloss Stonika technology. Consequently, the image is not distorted and allows for greater clarity and realism of the designs.

Sublime Edges

Dekton® XGloss Stonika is conceived as a unique piece unlike other products where a glassy layer is distinguished.

Its surface layer is almost imperceptible due to the thickness. It’s the thinnest in the market and it fuses perfectly with the base by creating a single more compact and resistant material.

Thermal and Scratch Resistance

Dekton® Stonika belongs to the Xgloss collection, so it keeps the same scratch properties as other polished colours.

Base and surface behave to temperature changes in the same way by avoiding common cracks due to the difference in expansion between the two elements.

An unique material with integrated design

Better hyperrealism and sharpness

Perfect edges* with small bevels and no imperfections

Thermal Resistance

*Volume decoration in Taga and Arga colours
Dekton® Stonika inspirational colour moodboard
Dekton® Stonika Bergen channels the perfection of Portobello natural stone. Its intricate, sculptural structure is strengthened by its lustrous finish.

**BERGEN**

Dekton® Stonika Bergen is the focal point of any design decor. Combines perfectly with all metals and woods.

The dark matte tones in any type of material (leather, wood, etc.) produce interesting contrasts that highlight the intense brilliance of Dekton® Stonika Taga.

The golden, earthy and white elements are ideal for creating a contemporary and elegant design.

Style

Traditional
They greyish streaks of Dekton® Stonika Olimpo perfectly combine with golden, metallic and wood elements like natural oak, and cementitious surfaces like Dekton® Soke in the Industrial Series.

**Styles**

Modern / Industrial

Scandinavian

Dekton® Stonika Olimpo takes inspiration from the very best Carrara marble for the most discerning customer. Dramatic, elegant veining against a soft white background is accented by its dazzling shine.

**OLIMPO**
Dekton® Stonika Arga creates a striking colour balance with low saturated tones and golden details.

Dekton® Stonika Arga embraces the iconic texture and soft warmth of Taj Mahal quartzite. The soft, creamy background with subtle veins intensifies its dramatic structure.
