# Index

Corporate Purpose

# Meaningful Design to Inspire People's Lives

## Mission

A leading company that works responsibly with its customers to anticipate and imagine the future, creating innovative and sustainable high-value surfaces for the world of architecture and design.

## Vision

To lead the global surfacing market through our brands, offering innovative and sustainable architectural solutions that provide design, value, and inspiration to our customers.

We are Cosentino

# Certifications

Cosentino has an unwavering commitment and respect for the environment and demonstrates this through responsible resource management, guaranteeing a commitment to innovation and continuous improvement of our processes, products, and services on a global scale.

# Cosentino Sustainability

At Cosentino®, we approach sustainability as a collective commitment that stems from the individual involvement of those that are part of the company.

Our continuous improvement efforts involve constant analysis of our entire value chain - from the acquisition of raw materials to the delivery of the final product to consumers.

We are firmly aligned with the United Nations' 2030 Agenda. As a global leader in the manufacturing and distribution of innovative surfaces from our headquarters in Almeria, Spain, we are committed to driving the path towards local and global sustainability.

→ Olive trees in the Cosentino industrial park

→ LED lighting throughout the Cosentino industrial park

→ Photovoltaic installations at Cosentino

## Energy

Energy efficiency and the use of renewable energy sources are two core elements of our strategy to minimize the impact of our activities.

100% of our energy consumption comes from renewable energy sources, and we aspire to reach 30% energy self-consumption in the coming years.

On the other hand, the constant improvement of our processes and machinery allows us to reach a high level of energy efficiency, which translates into an 8% decrease of our electrical consumption in our production processes.

## Water

Since our inception, we have valued the importance and understood the challenges of proper water management.

It has motivated us to implement a sustainable use policy maximizing the efficient use of water resources in the different production processes.

We use cutting-edge technology to achieve 99% recycled water in all our processes in the Cosentino Industrial Park.

Additionally, we use 100% of the surplus water to irrigate green areas.

## Materials

We are committed to making the most of the materials we work with throughout the value chain.

In recent years we embarked on an ambitious R&D project called "Circularity" to reuse the materials from which our products are made.

Another action is the innovative HybriQ+ Technology that brings about the new generation of Silestone. HybriQ+ incorporates a minimum of 20% recycled materials and is manufactured with 100% renewable electric energy and 99% recycled water.

## Carbon neutrality: Sustainable design

Cosentino Group is deeply committed to sustainable development in the company's growth strategy, prioritizing respect and protection of the environment.

### We calculate our carbon footprint

An external body verifies the calculation and the results of the carbon footprint that is submitted to the Spanish Ministry for Ecological Transition and Demographic Challenge (MITECO, in Spanish), which is responsible for approving and registering our footprint, becoming part of the **'Spanish registry of carbon footprint, offsetting and carbon dioxide absorption projects'** of the Spanish Climate Change Office (OECC, in Spanish), whose results are made public as an exercise in transparency.

This calculation uses energy and/or fuel consumption data, as well as raw material consumption data collected from all **Group subsidiaries** (Centers, Workshops, City Centers, HUBs, HQ, etc.) with a view to offset these emissions.

We address aspects related to the efficient use of natural resources, proper waste management, atmospheric emissions, discharge and other potential impacts in order to make sustainable use of natural resources and protect biodiversity and ecosystems.

At Cosentino we are strongly committed to the 2030 Agenda promoted by the United Nations and the Local Action Plan promoted by the Spanish Government.

### We reduce our impact

We are committed to energy efficiency, emissions reduction and sustainable mobility to minimize our impact.

- **Energy efficiency:** it is a priority for Cosentino to reduce energy consumption in the production process and in the general group activity, which is why we have managed to obtain 100% of the electricity we use from renewable sources.
- **Emission reduction:** 2.8 million euros have been invested in the implementation of an energy management and monitoring system for the heat systems, which allows heat from the Dekton® furnaces to be recovered and used in the dryers, thus reducing emissions.
- **Sustainable mobility:** we have recently joined the 'Plan Sumamos Salud + Economía' under which we have a Mobility Policy that helped us to avoid 230 TCO<sub>2</sub> in 2018.

As a demonstration of our commitment, we have managed to offset the 42,532 tons of CO<sub>2</sub> emissions resulting from one year of Dekton® production, thus obtaining the Zero Carbon Footprint label for the entire product life cycle in 2019 for all Dekton® products.

Additionally, the Sunlit Days series by Silestone® is the brand's first collection to achieve the carbon neutral certification.

### We offset our emissions

To achieve carbon neutrality in Dekton®, at Cosentino **we offset our emissions over the entire product life cycle** (scopes 1+2+3) by investing in GHG emission reduction projects.

For this purpose, we identify those projects that meet the requirements for responsible offsetting and that, in turn, have a strong social dimension that contribute to the achievement of the **Sustainable Development Goals of the UN's 2030 Agenda**.

The project selected to offset the 42,532 tons of CO<sub>2</sub> emissions, resulting from one year of Dekton® production, has a direct impact on sustainable development by **supporting the local economy, providing training and job opportunities**.

# What is HybriQ+ Technology?

A high-performance blend of premium materials and recycled materials produced through a sustainable manufacturing process using 99% recycled water and 100% electric energy from renewable sources.

After years of research and development, Cosentino introduced HybriQ Technology in 2020, drastically reducing the percentage of crystalline silica in the composition of Silestone, creating a new product category: The Ultimate Mineral Hybrid Surface.

As of 2022, the entirety of the Silestone portfolio is manufactured sustainably with HybriQ, with a maximum of 40% of silica in its composition.

## HybriQ®

Less Silica. More Sustainable. More Silestone®

DEKTON®

# Dekton® The Ultra-compact Stone.

Dekton® is an ultra-compact stone that takes inspiration from the beauty and processes of nature and reinterprets them through unique technology.

Dekton® is functional beauty in a high performance material that breaks the boundaries of architecture and design.

## Dekton® is stone

Dekton® is a sophisticated blend of over 20 minerals extracted from nature.

Dekton® is a totally inorganic material with unbeatable hardness and strength properties that does not deteriorate.

## Dekton® is ultra-compact

Dekton® is the only material in the industry that uses a 25,000 ton press in its ultra-compaction process.

Dekton®'s exclusive press generates a pressure equivalent to 2.5 times the weight of the Eiffel Tower, resulting in a material with no weak points and almost zero porosity.

## Dekton® is sintered

Dekton® perfects in a few hours what nature creates in thousands of years.

Particle Sintering Technology (PST) binds mineral particles together to achieve a homogenized and compacted internal structure.

## Dekton® is technique

Dekton® is a high performance, multi-purpose material for the world of architecture and design.

Its strength, variety of formats, sizes and installation options make it perfect for all types of applications and construction solutions. It withstands the most demanding conditions, even in its 4 mm thickness.

**Dekton®  
Product features**

Dekton® has all the technical specifications required in a high resistance surface to materialize any interior and exterior residential or commercial design project.

**Low water absorption**

Dekton®'s water absorption is negligible so it does not undergo any expansion movement due to water.

**Highly resistant to ultraviolet (UV) rays**

Dekton® is highly resistant to UV rays and will not fade or degrade over time in any kind of outdoor application.

**Superior mechanical resistance**

Dekton®'s variety of thicknesses allow it to be used in applications where resistance to wind or impact are required.

**Non-combustible**

Dekton® can withstand high temperatures without burning, scorching or cracking. European Standard EN 13501 and ASTM E84 testing classifies Dekton® as a non-combustible material.

**Color durability**

Dekton®'s control of pigmentation and decoration in the manufacturing process provides better color consistency from one slab to another, resulting in a long lasting product that will not fade over time.

**Scratch resistant**

Dekton® is one of the most scratch resistant surfaces on the market today. It has a rating of seven (7/10) on the Mohs scale for mineral hardness.

**Dimensional stability**

Dekton® expansion is minimal so it can be installed with thin joints between panels. These joints will keep their width in all conditions.

**Resistance to freezing and thawing**

Dekton®'s resistance to durability tests in freezing and thawing situations and its application in various weather conditions prove its high performance.

**Abrasion resistant**

Dekton® is even more resistant to abrasion than granite and porcelain, making it the ideal surface for facades or high-traffic flooring in commercial applications.

**Maximum fire and heat resistance**

Dekton® has been successfully installed on facades in areas exposed to high temperatures.

**Easy cleaning and low maintenance**

Most graffiti can be removed from Dekton® with standard cleaning products. Maintenance costs are reduced.

**Stain resistant**

Dekton® is resistant to stains from a variety of sources so they can easily be removed without altering the surface's finish.

# Dekton® Slim

**DEKTON® SLIM**  
Designed by COSENTINO

High aesthetic value and performance in vertical cladding and furnishings.

**Minimum Thickness of 4mm → Large Format & Performance**

**01 → Large format and minimum number of joints**

Its large format of up to 126" x 56" covers large surfaces, minimizing the number of joints and therefore, dirt.

**02 → Easy Installation**

Having such a light format, but with so many possibilities, simplifies everything. Its thin thickness allows for quick cutting and on-site adjustments with ceramic tile tools.

**03 → Design without limits**

Dekton® Slim is very easy to work with and can be cut to size. It adapts to all spaces.

**04 → Maximum resistance to humidity**

Dekton® Slim is the ideal ultra moisture and stain resistant coating for bathrooms. A high performance product that requires no more maintenance than a simple damp cloth.

Dekton® features

## Dekton® Formats

Adaptable and versatile.  
In any space.

Dekton® offers a variety of standard and custom sizes and thicknesses to meet the functional and creative needs of the client in any interior or exterior project, no matter how complex.

### Large format

Optimma Format → 102" x 39"  
Large format Slab → 126" x 56"

- 3 cm

## Dekton® Finishes

Different Sensations.  
Richness of Shades.

Dekton® comes in different finishes so that the only limit is the imagination: from the ultra-glossy finish, to matte or velvet textured options.

### X-Gloss

A bright, dazzling finish achieved through mechanical polishing, without the need for glazes or other materials.

### Matte

The matt texture aims for a natural, shine-free look, ideal for a harmonious and timeless finish. Most Dekton® products come in this finish.

### Velvet

Dekton®'s velvety texture. The materials chosen in Velvet create a feeling of warmth and comfort. This texture is perfect for classic colors with veins.

### Matte and Textured Velvet

Matte and Textured Velvet textures combine the warmth of velvet with the roughness of a textured, imperfect material. It is perfect for emulating the finish of natural stone.

# Optimma

## New optimized Dekton® format.

The ultimate interior cladding solution.

The Dekton® slab has been optimized with its most common applications in mind to create a new format with improved cost, design, installation and handling. Introducing our first Optimma family format specifically for cladding:

Optimma format :  
102" x 39" x 0.4cm

**102" x 39"**  
**In 0.4 cm thickness**

The slabs are created in 4mm thickness, which gives it a lightness that allows easy handling, if needed, it can be easily cut to adapt the product to all spaces.

### Cost Efficiency

The sizes are optimized to the most common cladding standards, allowing us to avoid waste, which in turn reduces price.

### Design with Purpose

The slab has been created to take advantage of its total height, which makes it much easier to cut it for cladding.

### Easy to Install

The product is smaller and lighter, which makes it easier to use, transport and handle. Cutting can be done with simple tools. The edges are already bevelled and the piece is always meshed.

### Design Match

The design has been conceived to place the slabs vertically to create a continuous design.

Match your style with Dekton

# Dekton Bookmatch

There are designs that leave their mark. Veins that run along walls and continue on floors and facades with patterns that would be impossible for a natural stone, but not for Dekton.

That's why we created Bookmatch, a system based on symmetry that allows veining patterns to expand without limits, making the veins cross spaces, go up, down and continue in seamless designs.

There is a nomenclature of numbers and letters to help you identify the parts to create the design that best suits your needs.

Material upon request, check availability.

Dekton Aura 15 Bookmatch

Dekton Natura 18 Bookmatch

## Dekton Aura 15

Available in 8, 12 and 20 mm thicknesses

## Dekton Aura 15

Available in 4 mm thicknesses

## Natura 18

Available in 4, 8, 12 and 20 mm thicknesses

# New Ukiyo Collection

Cosentino partnered with world renowned interior designer, Claudia Afshar, to create this one-of-a-kind collaboration.

Luxury interior design firm, Claudia Afshar Design, is led by this London-born and Los Angeles-based designer. Alongside her talented team and global projects, Afshar creates extraordinary environments that redefine opulence.

Both brands pay meticulous attention to detail and are focused on providing impeccable craftsmanship. Dekton Ukiyo features color-filled structured patterns that offer a sensory experience.

A new Dekton collection designed by Claudia Afshar, inspired by the Japanese concept Ukiyo.

Step into a world where time stands still, and the present moment is all that matters. Experience the beauty of living textures crafted by nature.

### A new conception of chromatic textures offering two linear, geometric, and bold fluting options.

The inner texture

→ Dekton Kreta GV2, Albarium and Kreta (honed) with Scalea Arabescato

**Bromo**

A dark gray shade inspired by slate featuring subtle faded graphics and a carefully-crafted texture with a natural aesthetic.

**Ukiyo GV2**

**Umber**

This terracotta color features a natural reddish pigment creating a warm, textured surface that adds character to any space.

**Ukiyo GV2**

**Ukiyo GV3**

**Ukiyo GV3**

**Nacre**

A cream shade characterized by subtle details from fine micro-concrete to lime plastering.

**Ukiyo GV2**

**Kreta**

Inspired by cement, this design is even and controlled. It can create lighter or darker spaces depending on the density of the pattern.

**Ukiyo GV2**

**Ukiyo GV3**

**Ukiyo GV3**

**Rem**

Its intricate design with brown and gray veining and hints of gold reflects the traditional and linear structure of Calacatta Lincoln.

**Ukiyo GV2**

**Ukiyo GV3**

→ Dekton Rem GV2 and Nacre

**Disclaimer**

This product is especially designed for indoor vertical cladding use. Do not use as a horizontal surface.

There are limitations for use on exterior cladding as stated in the product's User Manual regarding the general applications of Dekton® products. Improper use outside the limitations may result in deterioration of the surface appearance of the product.

Claims related to this deterioration of appearance in applications other than the intended use are not covered by the Cosentino® Warranty.

For further information, please refer to the Product Specification and User Manual available from your Cosentino® sales representative.

→ Dekton Kreta GV2, Albarium and Kreta (honed) with Scalea Arabescato

# New Pietra Kode Collection

The Italian stones of yesteryear recoded by Dekton for contemporary architecture and design through three series.

With Pietra Kode, designer and architect Daniel Germani reinterprets for Dekton the atemporal beauty of three classic stones: Vicenza, Travertine, and Ceppo. Elegant designs that transport us to a different era, rich in shades, colors, and textures that create a sensory experience beyond what the eye can see.

Pietra Kode evolves the concept of firmness, transforming it into a high-performance surface thanks to Dekton technology, an ultracompact stone that does not degrade. A completely inorganic material with insuperable hardness and resistance made to stand against the harshest conditions.

Its utility is maximized as it can be used in any application: from facades to flooring, cladding, and kitchen and bathroom countertops. Both indoor and outdoor.

## Vicenza Kode

Recodified {Vicenza} Avant-Garde

Dekton reinterprets the code of classic Vicenza stone, reimagining the material that gave life to villas and palaces seen in the Cinquecento by architect Andrea Palladio, an advocate for the principles of beauty, resistance, and utility set forth by Vitruvio.

## Travertino Kode

Decoded [Travertino] Elegance

Travertino Kode recodified the stone that brought to Rome a new technological vision of the material that made classic art shine and inspired Renaissance architecture. Because of Dekton's exclusive ultracompaction process, we have a stone that never loses its beauty or properties.

## Ceppo Kode

New code <Ceppo> Character

Ceppo Di Gré's code wrote the history of architecture in Milan, and today, Dekton rewrites and reinterprets its beauty and character to design spaces that inspire and connect us to nature.

**VK01 Nebbia**

A creamy white fine-grained base splashed with warm taupe, this versatile color is ideal for facades, flooring, and any interior or exterior cladding project. It reinterprets the texture of Grigio Alpi, a type of Vicenza stone with macrofossils that has been quarried in Italy since Roman times. Its design makes it especially suited for applications that require continuity in design and edges.

**VK02 Avorio**

A light beige tone with an extremely natural finish, VK02 Avorio draws inspiration from the eponymous Avorio stone, a material with Italian origins characterized by its fossilized shells. Its design makes it especially suited for applications that require continuity in design and edges.

**VK03 Grigio**

A dance of gray shades with warm accents, it perfectly combines with cream and taupe tones as well as woods. VK03 Grigio is inspired by Grigio Alpi stone, a type of Vicenza with macrofossils made popular by Renaissance architect Andrea Palladio, who used it in villas and palaces in the region of Vicenza. Its design makes it especially suited for applications that require continuity in design and edges.

**VK04 Grafite**

Its dark base, which intermingles black and gray tones and presents cloud-shaped whitish and reddish patches reinterprets the texture of dark, fine-grained limestone. Its design makes it especially suited for applications that require continuity in design and edges.

**TK05 Sabbia**

The veins reinterpret Italian Travertine run through each piece in perfect chaos, filling it with nuances. This attractive chromatic recodification of natural stone maximizes the strength and design of the original, dotting incomparable beauty and resistance, perfect for rustic or natural environments.

**TK06 Marmorio**

It is the quintessential Roman stone. Its porous striped structure gives an elegant, bright and lightweight look to any design and takes its inspiration from Travertino Navona, a natural stone quarried near Tivoli, east of Rome.

### GK07 Ceppo

The characteristic multiform structure and gray/blue tones of Italian Ceppo di Gré inspire this unique color. Ideal for both interior and exterior spaces, its atemporal design makes it a perfect choice for classic or modern designs.

The beauty of white

# SilverKoast Collection

The waves breaking on the shores of Malibu, the reflection of the sunrise on the waters of its lagoon or the salty sand dunes of the Santa Monica coast.

The serene and immense whites of the Pacific inspire Silverkoast, Dekton®'s new series.

A journey along California's most iconic coastline combined with the absolute beauty of two emblematic marbles: Carrara and Ivory White.

The two new predominantly white designs are available in both polished and matte finishes. A total of four finishes and two designs, ideal for bringing light to indoor and outdoor kitchens, wall cladding, bathrooms, furniture, flooring, and more. Elegant and harmonious with unparalleled performance.

Marina (Velvet)

Malibu (Polished)

## Laguna & Malibu

Laguna (velvet) and Malibu (polished) are inspired by the natural treasures of the Santa Monica shores. The white sand of Zuma Beach, the mesmerizing reflections of the sun on the calm waters of Malibu Lagoon and the waves breaking on the shores of Carbon and Topanga are rendered in subtle and delicate veins on an ivory white background.

## Marina & Salina

Marina (velvet) and Salina (polished) are inspired by the whimsical salt patterns that low tide leaves on the sand and rocks. These delicate white ridges, common on the beaches of El Matador, El Sol and Punto Cero, are materialized in an asymmetrical pattern of gray veins on a white base that reinterprets the classic elegance of Carrara marble.

Due to its intense shine XGloss requires special maintenance and care, particularly with the darker shades, where its intense black color can reveal small details.

The provided samples don't guarantee that the supply will be absolutely identical in tone and veins. See General Conditions of Sale.

# Silestone®. The Ultimate Mineral Hybrid Surface

Silestone® is a hybrid surface made of a blend of high-performance premium minerals, blend of high-performance minerals and recycled materials designed to bring color and texture to interior spaces.

## Silestone® Advantages

Silestone® is extremely durable in kitchens, bathrooms and other spaces exposed to constant activity and use. In addition, it offers an unlimited range of colors and textures.

Silestone® has many advantages, including low maintenance, high resistance to stains and scratches, and a low fluid absorption rate. This resistance to fluids and its minimal joints make Silestone® the ideal solution for places where liquids are present. Silestone® is hard-wearing and allows prolonged use to last a lifetime.

The properties of Silestone® are the result of constant years of innovation that guarantee maximum hygiene and safety.

### Acid and Scratch Resistant

Silestone® is highly resistant to scratches and impacts, as well as to external agents and acids common in everyday kitchen use.

### Impact Resistant

The high impact resistance of Silestone® allows for the handling of hard objects (pots, trays, etc.) with total peace of mind.

### Stain Resistance

Silestone® is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

25 year  
warranty

silestone

## Silestone® Formats

Infinite possibilities for  
indoor applications.

Silestone® is available in slabs up to 128" x 63" and in 24" x 12", 24" x 16", 24" x 24", 16" x 16" and 12" x 12" tiles. They are marketed in thicknesses of 1.2, 2 and 3 cm. In addition, different pieces can be combined to simulate thicker edges.

### Large format

Jumbo Slab → 128" x 63"  
Standard Slab → 120" x 55"

### Jumbo Slabs

Cosentino® offers Silestone slabs in Jumbo format (128" x 63" max.). This format allows for the creation of large surfaces with minimal jointing, design versatility, and better hygiene. This way, the slabs' use is optimized and waste minimized.

### Flooring formats

→ 24" x 12"

## Silestone® Finishes

Surface sensory  
perception.

In order to adapt to all styles, Silestone® offers different finishes for any of its applications. Polished, Suede or Volcano are three possibilities that make the imagination soar and bring to life countertops, floors or walls with the desired texture.

### Polished

Extremely glossy and smooth texture with an intense and consistent color.

### Suede

A matte finish which offers a unique soft and pleasant feel.

### Volcano

Rustic texture, rough to the touch, but soft at the same time, a surface attractive to the eyes and pleasant to the touch.

Embrace Le Chic Living

# New Le Chic Collection

Veined Patterns.  
Reborn.

Le Chic is a unique collection that redefines a timeless classic. A step forward in veined-patterned surfacing. Emblematic natural stone-inspired aesthetics that bring to life the charm of iconic Parisian & Victorian spaces.

The Silestone® Le Chic Collection revisits classic shades through a modern interpretation. New distinctive colors portray a sense of timeless allure with a hint of nostalgia.

Refinement and elegance are recaptured with expressive veins and metallic accents through craftsmanship and innovation. Cream and rich-colored backgrounds create patterns full of depth.

## Versailles Ivory

Golden veins with majestic character.

Versailles Ivory is the warmest tone of the collection. Very subtle two-toned marbling in the background, with gradient effects mesmerize with the flickering lights of its golden sparkle.

**Victorian Silver**

Evocative patterns of pearly rivers.

Soft and subtle two-toned marbling in the background, with gradient effects and great depth. The cool background tone blends with its silver and dark gray veins to create an elegant color that fits seamlessly with warm and cold tones.

**Eclectic Pearl**

A silver desert infused with light.

Flowing streams of delicate tones incrustated with grains like diamonds on jewelry. Eclectic Pearl hypnotizes with delicate veining, texture, and metallic accents across the whole surface.

## Bohemian Flame

A blazing touch of coppery glitter.

Bohemian Flame presents subtle sinuous veins with metallic inlays in copper shades. It is inspired by the movement of the golden flows of lava that generate scars on volcanic soil. It is reminiscent of the calmly moving golden flame of candles accentuating tiny metallic pieces.

### Parisien Bleu

Reminiscent of the City of Lights.

Parisien Blue boasts a deep bluish tone with strong personality and powerful character. Inspired by the shades seen in famous Imperial Roman stones, combined with fine veins in ochre tones.

### Romantic Ash

Deep crystal and silver particles in motion.

Large rivers and incrustations of grains in various sizes awaken memories of a milky way visible on a clear starry sky. The accent of blue strengthens the depth of Romantic Ash.

Urban Crush Collection

# New Urban Crush Collection

One, two, three, four...  
count the textures  
of the city.

Designed to enjoy creative living. Created for those who love industrial style. For conscious and respectful people. Seemingly inconspicuous.

Dusty tones of the collection create an ideal industrial backdrop. A perfect, natural partner for raw, eclectic spaces. But when you look closer, Urban Crush bursts with intensity. It is designed to breathe life into spaces.

Lines of the underground pump through its veins, strengthen its heartbeat. Every corner pulses with movement, delight, joy, relish...

It's Urban Crush.

## Lime Delight

A ray of sun on a nearby building.

The textured beige tones of Lime Delight are a versatile base for any interior design, from calm and pure spaces to more daring proposals. Its bright warm shades bring to mind radiance of famous Marbella limestone.

**Concrete Pulse**

The metropolis of concrete that never sleeps.

The gray tone of Concrete Pulse is perfect for eclectic interiors to create a vibrant dance of contrasts. This natural raw gray tone plays cheerfully with light and shadow.

**Brass Relish**

A city sunset.

The grained brown of Brass Relish blends seamlessly with the colors and design elements of modern vintage style. This sophisticated and elegant color embodies finely grained sandstone.

## Cinder Craze

Touch of the industrial surfaces.

The nearly black and grainy tones of Cinder Craze add style, personality, and life to industrial-inspired interiors. It is a modern reinterpretation of black sandstone. It combines grained and dark accents with white shell veins.

**Q+50** The Q accompanied with the sign "+" indicates it has a minimum of 20% of recycled material in its formula.

# Sensa

by Cosentino®

## Protected Natural Stone

Sensa by Cosentino® is premium maintenance-free natural stone brought to you by Cosentino, a world leader in the natural stone industry.

Sensa by Cosentino® is treated with a revolutionary stain protection treatment called SenGuard, and comes with a 15-year warranty.

SENSA  
**15**  
YEARS  
WARRANTY

SENSA  
by COSENTINO®

## Sensa by Cosentino® Treatment

The long-lasting, chemically-integrating technology allows the material to breathe. This technology enhances its powerful properties.

The process alters the surface tension of the stone causing the material itself to prevent liquids such as water, coffee or oil from penetrating.

SENSA  
by COSENTINO®

TRADITIONAL

### Applications

Sensa kitchen countertops.  
Natural, stain-resistant beauty.

Enjoy the design, hardness and resistance of natural stone without fear of stains. Sensa by Cosentino® quartzites and granites feature a revolutionary stain-resistant treatment that protects them for the life cycle of your countertops.

### Textures

Unique patterns for irreplicable surfaces.

The colors and textures of Sensa by Cosentino® have the patient and whimsical design of nature. Each of the seven available shades has a texture that produces different effects and sensations: suede, polished or caresse.

## 4.1 LIVING AREA

Redesign the living room and turn it into an open, functional, comfortable space integrated with the rest of the house.

→ 134

## 4.3 OUTDOOR

Revolutionize the outdoor space so that the porch, terrace or garden become a continuation of the house.

Innovative surfaces that bring the designer's vision to life throughout the home, in both indoor and outdoor spaces

→ 146

## 4.5 FURNITURE

Rediscover the exclusivity of custom-designed furniture for every space.

→ 124

## 4.2 BATHROOMS

Reinvent the bathroom space to create a world of sensations through a unique and integrated design concept.

→ 138

## 4.4 KITCHENS

Redefine the function of the kitchen in the home and transform it into the heart of the home.

## Living rooms

The living room is transformed into a personal and timeless space with Cosentino surfaces; an expression of sophistication and functionality.

Live your space

## Rediscover your home's living space

An integrated solution with maximum versatility and functionality.

Endless personalization possibilities.

## Limitless customization

Designing a living room with high aesthetic value requires versatile surfaces in a variety of colors, textures, and unique chromatic pantones, such as Dekton and Silestone, which will cover floors, furniture, cladding, and more, to create an integrated and differential interior design experience.

## Perfect for high-traffic areas

Dekton® is an innovative surface with a high level of resistance, capable of withstanding high temperatures, ultraviolet rays and any scratches. It remains unalterable to wear and abrasion, as a result of the high daily traffic in spaces such as living rooms.

## Easy installation

Dekton® is offered in a Slim format which is light, easy to cut, and adaptable to every space. Its thin thickness of 4mm allows adjustments to be made during installation, using tools for ceramic tiles.

## Comprehensive solutions

The same material for flooring, cladding and furniture creates visual continuity and high aesthetic impact, unifying spaces and increasing their functionality.

## New Dekton® Optimma Format

Dekton® has been optimized for interior cladding. The Optimma format (102" x 39") allows for cost efficiencies, more design possibilities and easy installation and manipulation. The results: impactful cladding and integrated spaces.

## Large format, minimal joints

Dekton® Slim's large format up to 126" x 56" and thickness of 4 mm allows you to cover large surfaces creating a continuous and homogeneous aesthetic for cladding and furniture. This size reduces the number of joints, easing cleaning and maintenance.

## C.Bath

Cosentino® helps you rediscover your bathroom space through a unique and integrated design concept.

Reimagine the most personal space in the home. Create a unique experience in which the most beautiful and functional Cosentino® surfaces create unique, warm, and exclusive spaces.

From wall and floor claddings in different yet perfectly balanced formats, colors and textures, to attractive vanities and shower trays, carefully designed with great attention to detail and simplicity.

Solutions of great aesthetic and functional value to suit every requirement and style of bathroom, which redefine the way in which we experience such a personal space and feeling of well-being.

## Large format

Large format, minimal joints. Tailor-made floors and wall cladding.

Bathrooms are exposed to constant activity. Using a high-quality surface for floors and cladding reduces joints and guarantees hygiene and cleanliness. The strategically placed slabs in XXL make the room look bigger, creating the sensation of a larger bathroom.

## Shower Trays

Shower trays with Dekton® Grip+ and Silestone®: exclusive and integrated designs in the bathroom with limitless customization possibilities.

Cosentino® offers an extensive collection of shower trays in the material the architect or designer chooses and adaptable to any space. It is an interesting alternative to the traditional shower that simplifies installation and assembly.

## Sinks

Sinks and vanity tops with great versatility that adapt to any space. Sophisticated designs with maximum beauty and durability.

Silestone® sinks are built with a unique and innovative design able to live up to the most demanding creative proposals. From sinks that integrate into the vanity top, to overmount options, double bowls...everything is possible with tailor-made fabrication.

## Optimma Format

Dekton® Optimma Format. Optimized for interior bathroom cladding: taking full advantage of the space, easy installation, and design continuity in a vertical format.

The Optimma slab format is available in 260 x 100 cm and 0.4 cm thicknesses, and is able to meet any vertical cladding need to create a continuous design, taking advantage of the full height with easy installation and minimum waste.

## Total Integration

Total aesthetic integration and visual continuity. The same material for your entire bathroom: floor, cladding, shower tray, and sink.

A single surface applied to every component of the bathroom allows for complete esthetic homogeneity, creating harmony, balance, and amplitude.

## Colors and textures

New collections of innovative, on-trend colors and textures, to create bathroom spaces full of originality and impact.

Innovative Silestone® and Dekton® surfaces possess a wide variety of solid and veined colors, unique chromatic pantones, and sensory textures to rediscover bathroom spaces.

→ Dekton® VK03 Grigio & VK 04 Grafite

→ Dekton® TK05 Marmorio & TK05 Sabbia

# Cosentino Exterior Spaces

Beautifully continuous  
and durable  
outdoor spaces.

Redesign your  
outdoor spaces to  
include facades, porches,  
and terraces that blend  
in with your home.

Exterior Spaces

## Customization without limits

Open spaces with freedom for inspiring, designing with a unique purpose: personalizing your outdoor spaces.

## Easy installation

Dekton® is very lightweight, easy-to-cut and adaptable format.

## High transit resistance

It remains unalterable faced with daily erosion and abrasion in outdoors spaces, used in terraces, stairs and pool surroundings.

## Dekton® Outdoor Countertops

Dekton® outdoor countertops are resistant and durable. Innovative surfaces turn into functional and beautiful countertops.

# Cosentino Kitchens

Reinventing the  
kitchen to make it  
the heart of the home.

Kitchen Spaces

The kitchen is the heart of the home and a key space to integrate the living and dining areas with the same design.

### Integration within the space

The kitchen as a living space which connects to the rest of the house. Total integration of the countertop with the living room cladding or floor.

### Kitchen Countertop and Island

Thousands of households all over the world have trusted Cosentino to provide them with a kitchen that is not only functional and beautiful, but also plays a key role in the daily lives of their families. We offer a wide range of colors and textures, so you're sure to find your perfect countertop.

### Kitchen Flooring and Cladding

In this so-called “reconversion” process, the island plays a major role, as it serves as a connecting element between the two environments as well as a meeting place in the home. In this project, the interior designer built the entire design around the island.

### Island in a classic material.

Although this kitchen has a distinctly modern look, the designer has opted for a classic material for the countertop: Silestone® Calacatta Gold in a polished finish. The use of a 5 cm strip and the diagonal cut on the front side bring modernity and style to a material reminiscent of ancient marble.

Radius between walls 2.6"  
Radius between bottom and sides 1"

# Furniture

Surfaces integrated with unique and timeless furniture design.

## **Dekton<sup>®</sup>, The skin of the furniture**

It's on-trend to use the same cladding on the kitchen or bathroom countertop to clad drawers and wardrobes. This allows you to achieve continuous and clean surfaces where joints disappear, creating a monolithic effect.

This decor trend is only possible with the technological evolution of materials. 8 mm and 12 mm thicknesses are ideal for tables and coffee tables. Dekton Slim 4mm thickness allows kitchen and bathroom furniture cladding, and also answers the creative restlessness of the designer: table tops for the interior and exterior completely personalized and exclusive.

## Furniture

Unprecedented durability and design.

Cosentino® surfaces redefine furniture thanks to their versatility, durability, and beauty.

→ Kitchen furniture cladding, Dekton® Slim Opera

Dekton® Slim, 4 mm thickness makes it an incredibly easy material to work with. Its light weight and properties make it the ideal solution to clad all types of furniture and adapt to any aesthetic proposal: in white and gold, in black and chrome...

Dekton® Slim has all the advantages and properties of Dekton, including high resistance to scratches and stains.

**Ideal for cladding closet doors and kitchens**

Dekton® Slim Zenith and Dekton® Slim Opera were the two tones chosen to hide these drawers under the stairs and on kitchen cabinetry. The result is a camouflaged surface of this practical storage solution, without compromising the aesthetic of the space.

→ Kitchen furniture cladding, Dekton® Slim Kreta

### Cabinets integrated into the island

Dekton® Slim is the perfect solution to clad drawers in the kitchen island, achieving a monolithic effect.

For this industrial project, the designer chose Dekton Trilium: a finish inspired by volcanic rock with a touch of oxidation, which adds great character to the space.

Once again, Slim's 4 mm thickness allows the creation of an island totally integrated with drawers.

→ Kitchen furniture cladding, Dekton® Slim Trilium

→ Table top, Silestone® Versailles Ivory

→ Table top, Dekton® Laos

→ Desk, Silestone® Eclectic Pearl

### Ideal for work spaces

The properties of Dekton® and Silestone® make these materials the perfect choice for work spaces. With their endless possibilities in terms of finishes and designs, they add a deco touch to these spaces and create attractive and functional tables suitable to work from home.
